

HOW TO ANALYZE YOUR VEHICLE INFORMATION REPORT (VIR)

The VIR searches for information in the Alberta Motor Vehicles and Personal Property databases. *It does not search for information in the other jurisdictions or law enforcement databases.*

Alberta Government

File Number: 00030-2992

Date and Time of Report:
June 23, 2000 10:55 AM

Vehicle Description

The Vehicle Identification Number (VIN) / serial number searched is: 1FMDU70E7YUB00000

Year	Make	Model or Series	Style	Body Colour	Fuel Type
2000	Ford	Ford	Truck	White	Gas

Odometer	Date	Code	Odometer	Date	Code	Odometer	Date	Code
112000	2000/05/18	M	110	2000/05/17	R	99	2000/05/17	

*** THIS VEHICLE'S ODOMETER WAS ROLLED BACK ***.

Vehicle Status

The current status of this vehicle is: writeoff as of July 7, 2000

This vehicle must pass a written-off inspection prior to registration.

Vehicle Registration

This vehicle was first recorded in Alberta's Motor Vehicles System on: April 26, 2000

Registration date and location:

May 03, 2000	in Edmonton, AB
May 01, 2000	in Edmonton, AB
April 27, 2000	in Edmonton, AB

Licence plate classification(s): commercial, passenger

Lien Information

This search found 0 lien(s) and other related instruments with an exact match to this serial number as of the date and time of this report.

See the back of this form for an explanation of the information provided in this report.

REG 0412

The information reported on the VIR is valid only at the date and time shown on the report. A VIR should be purchased as close as possible to the date the vehicle is purchased.

Is the description of the vehicle correct? If not, ensure the serial number (VIN) is correct.

The last three odometer readings, the date they were recorded and possibly a reason code could be displayed.

The Alberta Motor Vehicle System (MOVES) is not a vehicle title system. Consequently, the Registrar of Motor Vehicle Services cannot confirm the legal or beneficial owner of a vehicle as of a specific date. On MOVES, the 'registered owner' of a vehicle identified by VIN is the person that has registered that vehicle in Alberta so that the motor vehicle may be operated in Alberta, in accordance with *Alberta Traffic Safety Act*.

The VIR reports the number of liens registered in Alberta. Liens registered in other provinces will not be reported. If a vehicle appears to have been registered in another province, it may be possible that a lien is registered against the vehicle in that province. *An out of province lien search may be necessary.*

Be aware, a lien may be registered between the time the report was printed and your purchase of the vehicle. Request the VIR as close as possible to the date the vehicle is purchased.

Is the serial number (VIN) correct? If the vehicle description on the VIR does not match the vehicle you are purchasing the serial number may be incorrect. A visual inspection of the serial number may be required.

Is the color the same? *If not, you may want to ask the seller about the change.*

If the status of the vehicle is not "ACTIVE", a safety inspection may be necessary to register the vehicle.

This is the date when the vehicle was first created on the Alberta Motor Vehicle System.

This area provides the most recent seven new registrations of the vehicle on the Registrar's system. It lists the date and the location of these new registrations but does not provide the dates a registration was renewed by a registered owner. While the Registrar cannot confirm the legal or beneficial owner of a vehicle as of a specific date, this list could point to possible changes in ownership.

The VIR identifies liens registered on the Alberta Personal Property database for a vehicle matching the VIN exactly. One incorrect character could result in incorrect information. Ensure the VIN is correct.

For more information refer to the Vehicle Information Report (VIR) Fact Sheet.
